

KEYS TO SUCCESS:

- 1) Open the Introduction. This is the first chapter in study online and will show you how to properly use the course.
- 2) Study each chapter. Make sure you are passing each chapter quiz with 80% or better before moving on to the next chapter.
- 3) Once you have completed the chapters, SIMULATE YOUR EXAM. Make sure you are receiving 80% or better consistently on your simulated exams (3 or 4 times in a row) before you sit for your state exam.
- 4) After you have scheduled your date and time for your state exam, mark on your calendar the day or two before to 'take my Bonus Questions'. The Bonus Questions are an additional simulated exam (same # of questions as the real state exam) and are linked to our "You Pass or We Pay" money back guarantee. You can take your Bonus Questions one time only! If you receive 80% or better on the Bonus Questions and test within 3 days, we guarantee you pass your state exam or we refund the purchase price of your product.
(If you are receiving 80% consistently in your regular practice exams, you should have no problem getting an 80% on the Bonus Questions.)
