

Known for its strength, revered for its determination, the eagle stands as a symbol.

Perched high in the mountain-tops, peering down into the valley of nature, the eagle embodies the spirit of freedom. However, at United American, the eagle is much more than a symbol of freedom. It is a symbol of hard work – **your hard work!**

In 1996, UA introduced the five-year Eagle Program for the Top Ten President's Club members. The program was designed to award the efforts of our Agents and Agencies who continually make UA a success. Since 1996, qualifiers have received a different limited edition eagle created by Dear Sculpture.

For 2000, qualifiers will receive the fifth year eagle, the last one in the series. Auro Belcari, one of Italy's leading sculptors, crafted this realistic-looking statue. With a wingspan of approximately two feet, this eagle is an exquisite piece to complete the program.

So, let this cold-cast porcelain eagle stand as a symbol of your accomplishments and contributions to United American.

There are nine months left to qualify for the fifth year eagle. Remember, only the top ten producers receive this honor.

Find out where you stand to join the Eagle Program and if you are on track for Bermuda on pages 10-11.
