

Group Sales

Looking To Turbo-Charge Your Sales?

UAs Group Product Fills The Need!

United American's group plans are designed to provide employers, unions and their Medicare-eligible retirees with a common sense, economical and flexible approach everyone can live with.

Fewer insurance companies are remaining in the group Medicare Supplement market. And, more HMOs are backing out of the Medicare market completely. Those Medicare-risk HMOs that have decided to stay in the market, however, have announced substantial increases in their premiums. Therefore, in today's changing market companies and unions are desperately searching for alternative coverage for their retirees. By taking advantage of the outstanding value provided by this product you are not only giving your sales a boost but filling your customers' needs.
