## For The “Perfect Job”?

If you are in sales, you can probably sell anything — widgets, vacuums, clothing, or cars. Sure, conveniences such as these are useful to the general public, but what kind of personal satisfaction and compounding wealth do you actually receive? The answer is probably slim to none. We came up with a list of “talking points” (values, earning expectations, flexibility, stability, etc.) to look for and consider when searching for that “perfect job”.

Amazingly, United American offers each and every one of these! Even though you as General Agents already have the “perfect job”, maybe you can use this as a checklist in your recruiting efforts to compare our opportunity!
