

PARTNERS REVIEW

Get The Right Price On United American's Partners Program

In April, United American announced that they would be offering more ACF Partners services at a new price. So far, this addition has been very beneficial for our Agents and customers. But, with so many great Partners services on the UA market, it's easy to get confused about program details. Below, we've outlined each of the programs.

ACF Partners *(not available in AL, CT, KS, MA, MN, MT or NY)*

Provides the same features of automatic claims filing and discounts on vision, dental, hearing, chiropractic and drugs — plus more! Now the program offers a 24-hour nurse line, emergency travel service as well as discounts on vitamin/nutritional supplements and travel. Currently, we're offering the enhanced ACF Partners to NEW Medicare Supplement policyholders.

Cost: **\$5 a month**

Note: The new ACF Partners services are not available for existing Med-Supp customers at this time. They will continue paying the \$3 fee.

UA Partners *(not available in AL, KS, MA or NY)*

Offers discounts on vision, dental, hearing, chiropractic and drugs. New and existing underage health, Long Term Care and Cancer clients as well as new Life customers can purchase this program.

Cost: **\$3 a month**

Stand Alone UA Partners *(not available in AL, MA, NJ or NY)*

Again this program offers discounts on vision, dental, hearing, chiropractic and drugs. Anyone who does not own a UA policy or any existing life customer who has not already purchased Partners can participate in the Stand Alone service.

Cost: **\$36 a year**

Note: Partners can only be offered in Kansas as a stand alone.
