

ACF Partners Gives Customers More!

UA's popular discount services program for Medicare Supplement customers has been enhanced!

TWO NEW SERVICES

24-hour Nurse Line

Members have free access to a registered nurse 24 hours a day, seven days a week. The nurses offer helpful information on deciding an appropriate level of care and self-care techniques for common symptoms. This service also includes an audio health library which can be accessed by phone.

Emergency Travel Service

This covers just about any unfortunate circumstance a person could encounter while traveling. Assistance includes hospital transportation; medical referrals; lost documentation service; legal help and referrals; emergency cash transfers; family visitation and much more!

TWO NEW WAYS TO SAVE

Vitamin and Nutritional Supplements Program

Using an 800 number, members order their vitamin catalog and enjoy shopping convenience right from home. Plus, participants receive additional savings off the listed catalog prices and save even more on monthly special rates.

Travel Discounts

Whether it be first-class, family-style or budget accommodations, participants can receive up to a 50% discount off published room rates at participating hotels — such as the Hilton, Doubletree, Marriott, Ramada Inn and more! Members are also offered savings on automobile rentals with up to 20% off daily, weekly and promotional/holiday rates.

NEW COST FOR MED-SUPP NEW BUSINESS

The new ACF Partners price of \$5 is effective for Medicare Supplement applications dated June 1, 1999 or later. Current policyholders will receive the expanded services at a later date. Agents will receive a special mailing explaining the expanded program.

Members receive these valuable new services in addition to Automatic Claims Filing and savings on prescriptions, dental care, eye care, hearing and chiropractic care.

NEW SUPPLIES

Customers will receive a hard plastic ID card when they subscribe to the program. In addition, a new brochure outlining the expanded savings/service programs is available for Agent training and policyholder use. It will replace the existing brochures currently being used. Branches will be shipped supplies.

Note: Arizona and Texas require state special ProCare app/brochures which indicate the ACF Partners fee. These are being updated. Continue to use your existing supplies until new app/brochures are available.
