

Greetings From The Most Listened To Man In Radio

Paul Harvey News
August 25, 1999

Hello American -- I'm Paul Harvey.

Beginning September 30, I will be recommending United American Insurance to millions of Americans on thousands of ABC Radio stations across the country.

There are so many advantages to Medicare supplement insurance and you and I are representing the nation's leading writer of individual Medicare supplements: United American!

I will be encouraging your potential customers to call for a free copy of the "Guide To Health Insurance For People With Medicare."

I am immensely proud of the opportunity to speak on your behalf and tout the many benefits of owning this United American policy. So I'll pave the way and together we are going to share some exciting, productive and prosperous new years.

Good day!

Audio cassette tapes of Paul Harvey's speech in Atlantis are now available from the Home Office. Call to order yours today!
