

# Product Focus: UA-250

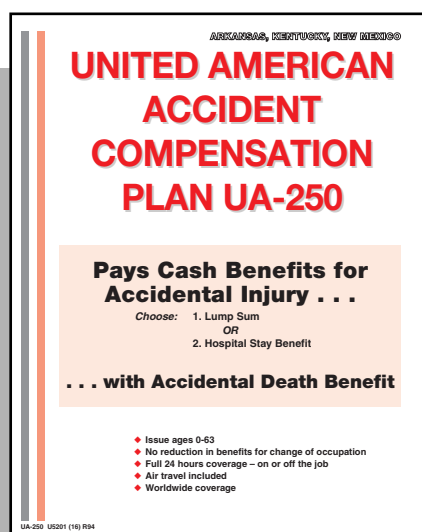

## United American's Accident Compensation Plan

**Accidents happen.** Life is full of the unexpected, and you never know when the day can take a turn. UA Agents, however, can help customers shield themselves against the financial consequences of injury due to accident.

**Be prepared.** United American's Accident Compensation Plan — **the UA-250\*** — can be a great addition to your Underage Health portfolio. The coverage is designed to pay cash for accidental injury, and some benefits increase up to twice the amount depending on the type of injury and treatment needed.

## Cash When Your Clients Need It Most

The Accident Compensation Plan is an inexpensive way for your customers to minimize financial worry associated with unexpected injury. Clients can choose a compensation option that is most beneficial to them:

- **Lump Sum Payment:** This option pays cash — up to \$10,000 per accident — for an accidental injury. Amounts are assigned by a specified Schedule of Benefits. Benefits increase by 50 percent for an open or compound fracture, which is one-and-one-half times the amount for simple fractures. Additionally, double benefits apply for an accidental injury resulting in an open operation with bone graft or metallic fixation.
- **Hospital Cash Benefit:** This payment choice offers up to \$6,250 per hospital stay. It pays \$250 per week for as long as 25 weeks while confined in the hospital due to accidental injury.
- **Accidental Death Benefit:** This compensation option pays \$10,000 upon an accidental injury resulting in the death of the insured. This feature is offered in lieu of other benefits.

## Ideal for Families

Parents often find themselves rushing to the emergency room for sprains or broken bones. Upon accidental injury, the UA-250 First Aid Benefit pays up to \$40 for medical treatment in the doctor's office or at the hospital when outpatient treatment is required and no other benefit is paid.

## Complement Existing Plans

As a stand alone product, the UA-250 offers affordable protection from a solid company. Give your customers well-rounded coverage by combining this plan with UA's Cancer plan or one of our Hospital/Surgical plans, such as the HSXC or the SHXC.
